(11) LITHOLOGY Ground Elevation \_\_\_\_\_

Material	From	To
On 9/16/1983, Baker Rock Crushing Co. submitted an application to transfer a portion of its water right (cert. 33211) to a childcare facility, changing the place of use and point of appropriation for 0.0007 cfs to an existing well of unknown depth and construction. Several well logs exist in the area, but there is not enough information on this well to make a positive correlation, so this placeholder record was created to represent the well until more information becomes available.		

Estimated date originally constructed < 9/16/1983 (trans. app.)
